

Welcome

The Louisiana Orthopaedic Association invites you to the 2018 Annual Meeting, February 2-3, 2018, at the Hilton Riverside in New Orleans.

Dr. Matthew Williams as program director has developed a dynamic program. We are fortunate to have three outstanding speakers joining us this year in New Orleans.

Dr. Wael Barsoum is President of Cleveland Clinic Florida and a member of the Cleveland Clinic Board of Governors and Executive Team. He is a proven leader who has directed several initiatives to improve clinical outcomes, patient experience, and hospital operations. He specializes in adult reconstruction consisting of primary and revision hip and knee replacement. He will be speaking on reconstructive challenges of the arthritic hip and current management of the arthritic knee. Furthermore, he will also be providing an insightful discussion on the current business of healthcare.

Dr. Hill Hastings has been in practice at the Indiana Hand to Shoulder Center since 1981 and is Clinical Professor of Orthopaedic Surgery at Indiana University Medical Center. Dr. Hastings will be speaking about total elbow arthroplasty for fracture and nonunion. Additionally, he will speak about hemi-hamate resurfacing arthroplasty.

And last but certainly not least, our immediate past president Dr. Felix "Buddy" Savoie will speak. Dr. Savoie is currently Ray J. Haddad Professor of Orthopaedics and the Chairman of the Department of Orthopaedic Surgery at Tulane University School of Medicine. He is past president of LOA, AANA, and ASES. Dr. Savoie will speak on his indications and techniques of elbow arthroscopy.

In addition to our regular meeting, LAMMICO will present a discussion on Friday and a symposium on Saturday morning. A 15% discount on medical malpractice expenses is provided for all members attending both sessions.

The President's Reception with the exhibitors will be held at the Hilton Riverside New Orleans from 5:30 to 7:00 pm on Friday February 2, 2018. The winner of the Top Resident Paper Competition will be announced at this event.

We look forward to seeing you at the 2018 LOA Annual Meeting in New Orleans.

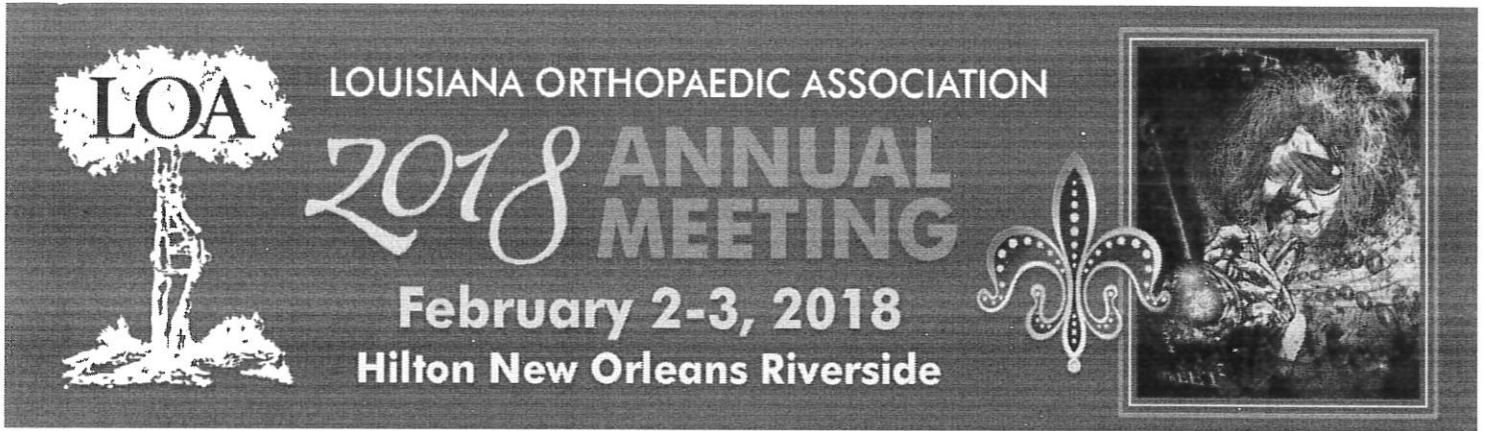

Sincerely,

Scott Yerger, MD
President, LOA

Accreditation and Designation:

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Academy of Orthopaedic Surgeons and the Louisiana Orthopaedic Association. The American Academy of Orthopaedic Surgeons is accredited by the ACCME to provide continuing medical education for physicians.

The American Academy of Orthopaedic Surgeons designates this live activity for a maximum of **13.75 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

General Information

Meeting Objectives:

1. To identify the current trends in management of complex elbow trauma and the indication and appropriate use of internal fixation and elbow arthroplasty.
2. To discuss the controversies in partial knee arthroplasty and total knee arthroplasty and the components to appropriate decision making for optimal outcomes.
3. To understand the controversies in management of proximal humerus fractures in regard to internal fixation or arthroplasty with hemiarthroplasty and reverse total shoulder arthroplasty. Specific cases will describe the indications and use of each modality.
4. To provide the current models and trends of business management in orthopedic practice at a large institution and making this knowledge useful to the general orthopedic surgeon business-owner.

Accreditation and Designation:

LOUISIANA ORTHOPAEDIC ASSOCIATION
2018 LOA Annual Meeting
February 2 - 3, 2018
New Orleans, LA

FRIDAY, FEBRUARY 2, 2018

6:30 AM – 6:00 PM	Registration / Check-In Location: Foyer
6:45 AM – 8:00 AM	Breakfast with Exhibitors Location: Churchill CD
7:30 AM – 8:00 AM	Welcome and 1st Business Meeting Location: Churchill AB
8:00 AM – 8:30 AM	Keynote Lecture 1: Reconstructive Challenges of the Arthritic Hip Wael Barsoum, MD <i>Objectives:</i> <i>Participants will be exposed to challenging aspects of simple and complex arthroplasty as well as non-arthroplasty reconstructive hip surgery. Management options, treatment decisions and care pathways will be discussed.</i> Location: Churchill AB
8:30 AM – 9:00 AM	Symposium 1: Joints - Total Hip Arthroplasty <i>Moderator: George F. Chimento, MD, FACS, FAAOS</i> <i>Panel: Wael Barsoum, MD; R. Bryan Griffith, Jr., MD; William F. Sherman, MD, MBA, FAAOS; E. Scott Yerger, MD, FAAOS</i> <i>Objectives:</i> <i>Challenging case studies in primary total hip arthroplasty will be presented to the panel of fellowship trained joint surgeons. Cases will direct participants toward appropriate operative decision making.</i> Location: Churchill AB
Scientific Papers 9:00 - 9:45 am	
9:00 – 9:05 AM	Evaluation of Pain Scales and Narcotic Usage: A Comparison of Liposomal Bupivacaine and Bupivacaine HCl in Trigger Finger Release and Carpal Tunnel Release Surgeries Drake Daily; Mark A. Dodson, MD, FAAOS Location: Churchill AB
9:05 – 9:10 AM	Porcine Knee Medial Meniscus Fails to Regenerate with Human Stem Cell Injection Following Partial Medial Meniscectomy Alan Hinton, MD Location: Churchill AB
9:10 – 9:15 AM	Four and Five-Level Anterior Cervical Discectomy and Fusion with Plate Fixation: Outcomes and Patient Factors Tyler Stavinoha, MD; Patrick A. Massey, MD; Trevor Carroll, MD; Richard Barton, MD; Milan Mody, MD Location: Churchill AB
9:15 – 9:20 AM	Radiographic Outcomes and Time Savings of Patient Specific Instrumentation vs Traditional Intramedullary Referencing in Total Ankle Arthroplasty Ian Elliott, MD; John T. Heffernan, MD; Isabella Wu, ; Ramon F. Rodriguez, MD, FAAOS Location: Churchill AB
9:20 – 9:25 AM	Suprapectoral vs Intra-Articular Biceps Tenodesis: A Comparison of Clinical Outcomes Brian Godshaw, MD; Nicholas Kolodychuk; Benjamin Browning; Gerard Williams, MD; Deryk Jones, MD, FAAOS Location: Churchill AB
9:25 – 9:30 AM	Safe Depth of All-Inside Posterior Horn Lateral Meniscus Repair Using the Medial, Trans-Patellar, and Lateral Arthroscopic Portals

Patrick A. Massey, MD; David Parker, MD; Kaylan McClary, MD; Benjamin Feibel, MD; Giovanni Salitro, MD; Richard Barton, MD
Location: Churchill AB

9:30 – 9:35 AM

Anterior Cruciate Ligament with Bone Patellar Tendon Bone Technique Does Not Cause Functional Anterior Knee Pain

Brian Godshaw, MD; Connor Ojard, MD, Ochsner Health System; Gerard Williams, MD; Michael Nammour, MD; Michael Wong; Scott C. Montgomery, MD, FAAOS; Deryk Jones, MD, FAAOS; Misty Suri, MD
Location: Churchill AB

9:35 – 9:40 AM

Platelet-Rich-Plasma is an Equal Alternative to Operative Intervention in the Treatment of Type I Medial Epicondylitis - A Retrospective Review

Hunter Bohlen, MD; Stephen Thon, MD, Tulane University; Victor Wu, MD; Zachary Schwartz, MD; Michael J. O'Brien, MD, FAAOS; Felix H. Savoie III, MD, FAAOS
Location: Churchill AB

9:40 – 9:45 AM

Association of Baseline Patient-Reported Outcome Measures with Patient Comorbidities in Elective Shoulder Arthroscopy

Sheena Amin; Steve DeFroda; Joseph Gil; Mary K. Mulcahey, MD
Location: Churchill AB

9:45 AM – 10:15 AM

Break with Exhibitors

Location: Churchill CD

10:15 AM – 10:45 AM

ABOS Update on Maintenance of Certification

David F. Martin, MD
Location: Churchill AB

10:45 AM – 11:15 AM

Keynote Lecture 3: Current Management of the Arthritic Knee

Wael Barsoum, MD

Objectives:

Dr. Barsoum will discuss the current Cleveland Clinic care pathways for treatment of the arthritic knee. Conservative options moving to operative management will be covered. Participants will gain insight and ideas to bring back to their own practices in regard to treatment pathway development.

Location: Churchill AB

11:15 AM – 11:45 AM

Keynote Lecture 4: The Current Business of Healthcare

Wael Barsoum, MD

Objectives:

Dr. Wael Barsoum, President of Cleveland Clinic Florida, will discuss the current healthcare climate and the business of medicine as of February 2018.

Location: Churchill AB

11:45 AM – 11:55 AM

Question and Answer with Wael Barsoum, MD

Location: Churchill AB

11:55 AM – 12:00 PM

The Gunderson Award

Location: Churchill AB

12:00 PM – 1:00 PM

Lunch with Exhibitors

Location: Churchill AB

**Concurrent Sessions
1:00 – 2:00 pm**

1:00 – 2:00 PM

LAMMICO – Errors in Diagnosis: Origins and Prevention

Kenneth E. Rhea, MD, FASHRM

Objectives:

Description:

Diagnostic error is the primary cause of malpractice claims for most specialties but until very recently, it flew under the patient safety radar. The Institute of Medicine (IOM) recently released a report on the issue, and a coalition of numerous medical societies has taken up the task of identifying what can be done within their own specialties to improve diagnosis. This lecture will review what is known now about diagnostic error, and will present improvement strategies physicians can use in their own practice, involving both system and cognitive factors.

Location: Churchill AB

- 1:00 – 2:00 PM **Resident, Fellow and Young Orthopedist Forum**
Moderator: Michael J. Leddy III, MD, FAAOS
Panel: Scott J. Habetz, MD; Michael J. O'Brien, MD, FAAOS; Field H. Ogden II, MD; Judson Penton, MD, FAAOS
 Location: Chequers Room
- 1:00 – 4:00 PM **AAOE (Practice Managers)**
 Location: Cambridge Room
- 2:00 PM – 2:30 PM **Keynote Lecture 2: Total Elbow Arthroplasty for Fracture and Nonunion**
 Hill Hastings, II, MD
Objectives:
Complex fractures of the distal humerus and elbow joint will be discussed. Management algorithm for decision making in these difficult injuries will be covered. Fracture sequelae and nonunion will be explored. Operative decision making in regard to arthroplasty and proper techniques for optimal outcomes will be discussed.
 Location: Churchill AB
- 2:30 PM – 3:00 PM **Symposium 2: Hand - Practical Management of Hand and Wrist Surgery**
Moderator: Robert D. LeBlanc, MD, FAAOS
Panel: Timothy C. Bowlin, MD; Hill Hastings, II, MD; Leslie E. Sisco-Wise, MD, FAAOS; Claude S. Williams IV, MD
Objectives:
The Management of routine but often controversial topics such as scapholunate ligament injury and scaphoid fractures will be covered. Helpful tips on rapid and accurate diagnosis and operative versus nonoperative management will be provided to participants.
 Location: Churchill AB
- 3:00 PM – 3:30 PM **Break with Exhibitors**
 Location: Churchill CD
- 3:30 PM – 3:45 PM **Legislative Update and LOPAC Plea**
 Clark Gunderson, MD; Judson Penton, MD, FAAOS
 Location: Churchill AB
- 3:45 PM – 4:15 PM **Symposium 3: Peds - Common Pediatric Fracture Management Decisions**
Moderator: William Accousti, MD
Panel: Brad A. Culotta, MD; Gabriel Dersam, MD; John Fox, MD; Michael J. Heffernan, MD
Objectives:
Common pediatric fractures encountered during the routine practice of general orthopedics will be explored. The discussions will cover diagnosis and proper advanced imaging if necessary. Controversies regarding treatment decisions are the focus of this symposium; do these pediatric injuries require surgery or not?
 Location: Churchill AB

Top Resident Paper Presentations
4:15 - 4:45 pm

- 4:15 – 4:23 PM **Accuracy of Tibial Slope Estimation in Total Knee Arthroplasty**
 Connor Ojard, MD, Ochsner Health System
 Location: Churchill AB
- 4:23 – 4:30 PM **Cost and Complications of Percutaneous Fixation of Hand Fractures in a Procedure Room Versus the Operating Room**
 Andreas Chen, MD, Louisiana State University - Shreveport
 Location: Churchill AB
- 4:30 – 4:38 PM **The Use of a Bio-Inductive Collagen Patch to Supplement Repair of Large and Massive Rotator Cuff Tears Including Revisions: Clinical and Radiographic Outcomes at 2-Year Follow Up**
 Stephen Thon, MD, Tulane University
 Location: Churchill AB
- 4:38 – 4:45 PM **Healing, Nonunion and Reoperation After Internal Fixation of Diaphyseal and Distal Femoral Fractures: A Systematic Review and Meta-Analysis**
 Cristina Terhoeve, MD, LSU - NO Orthopaedics
 Location: Churchill AB

4:45 PM – 5:15 PM

Symposium 4: Sports - Decisions in Treating Athletic Injuries of the Elbow and Knee*Moderator: Luis M. Espinoza, MD**Panel: Michael J. Duval, MD, FAAOS; Jason L. Rolling, MD; Felix H. Savoie III, MD, FAAOS; Misty Suri, MD***Objectives:**

Athletic injuries are common and commonly treated in the general orthopedic surgeon's office. The presentation of routine elbow and knee injuries that happen during play will be included. Proper athlete examination and decision-making will be covered in regard to operative and non-operative management. In the case of operative management, controversies regarding what surgery will provide the best results - or if there is an outcome difference between operations will be a focal point.

Location: Churchill AB

5:15 PM – 5:30 PM

Announcements

Location: Churchill AB

5:30 PM – 6:30 PM

Poster Session*Moderators: Shaun Accardo, MD; Seth D. Rosenzweig, MD; Peter D. Vizzi, MD*

Location: Churchill Foyer

5:30 PM – 7:00 PM

Reception with Exhibits

Location: Churchill CD

SATURDAY, FEBRUARY 3, 2018

6:30 AM – 12:00 PM

Registration / Check-In

Location: Foyer

6:45 AM – 8:00 AM

Breakfast with Exhibitors

Location: Churchill CD

7:00 AM – 8:00 AM

LAMMICO - The Patient Perception Priority: Communication, Compliance and Claims

Kenneth E. Rhea, MD, FASHRM

Objectives:**Description:**

In 2015 the Institute of Medicine (IOM) issued an extensive report on the nature and prevention of diagnostic error entitled "Improving Diagnosis in Healthcare." The definition of medical error was changed to include patient communications. The IOM report was consistent with other studies showing the strong association of communications with the most costly of medical mistakes in malpractice claims: diagnostic error. Patient communications determine patient understanding and perceptions of medical care received and treatment compliance. The important patient perception of care has been addressed by the government in the form of a survey entitled the "Consumer Assessment of Healthcare Providers and Systems." This practice rating method has been added to the new 2017 MACRA Quality Payment Program (QPP) Merit Based Incentive Payment System (MIPS) as a Quality measure. Patient perception of care which is associated with diagnostic error, medical harm and claims is now being measured for treatment quality and physician payments. This lecture addresses the correlation of patient opinion and quality of care including how failed patient communications and poor patient involvement lead to diagnostic error, medical adverse events and malpractice claims. Important areas of patient perception in the CAHPS survey will be discussed with recommendations on improving patient communication and involvement. Attendees will be able to implement methods to improve patient involvement and perceptions with better understanding and compliance leading to decreased diagnostic error and reduction of malpractice claims.

Location: Churchill AB

8:00 AM – 8:45 AM

Symposium 5: Controversies in Management of Cervical Spine Myelopathy*Moderator: Lon Baronne, MD**Panel: Paul C. Celestre, MD; Henry L. Eiserloh III, MD; Marco Rodriguez, MD***Objectives:**

Participants will understand the definition of cervical myelopathy and be exposed to common and unique presentations of cervical myelopathy. Diagnosis of cervical myelopathy and treatment algorithms will be discussed. Participants will explore the controversies surrounding anterior and posterior surgery for cervical myelopathy.

Location: Churchill AB

8:45 AM – 9:15 AM

Keynote Lecture 5: Elbow Arthroscopy

Felix H. Savoie III, MD, FAAOS

Objectives:

Dr. Savoie will discuss his experience using the arthroscope for the management of elbow pathology. The indications for using arthroscopy, treatment decisions and surgical management of these conditions will be included.

Location: Churchill AB

9:15 AM – 9:45 AM

Symposium 6: Joints - Controversies in Total Knee Arthroplasty

Moderator: Timmothy Randell, MD, FAAOS

*Panel: Paul C. Buzhardt, MD, FAAOS; Robert Easton, MD; James B. Kyle, MD, FAAOS
Vinod Dasa, MD*

Objectives:

The moderator will present to the panel of subspecialty trained joint surgeons common and challenging cases involving knee arthritis. Operative and nonoperative decision making will be covered. Controversies regarding total knee arthroplasty and unicompartmental knee arthroplasty will be discussed.

Location: Churchill AB

9:45 AM – 10:15 AM

Keynote Lecture 6: Hemi-Hamate Resurfacing Arthroplasty

Hill Hastings, II, MD

Objectives:

Participants will be exposed to the hemi-hamate resurfacing arthroplasty as a treatment for proximal interphalangeal joint pathology. The development of the procedure and its indications, techniques, and results will be discussed.

Location: Churchill AB

10:15 AM – 10:45 AM

Break with Exhibitors

Location: Churchill CD

**Scientific Papers
10:45 - 11:05 am**

10:45 – 10:50 AM

Pre-Operative Glycemic Control Predicts Peri-Operative Serum Glucose Levels in Diabetic Patients Undergoing Total Joint Arthroplasty

Brian Godshaw, MD; Connor Ojard, MD, Ochsner Health System; Tyler Adams; Leslie Thomas, MD; George F. Chimento, MD, FACS, FAAOS; Bradford S. Waddell, MD

Location: Churchill AB

10:50 – 10:55 AM

Can Robotic-Assistance Shorten the Learning Curve in Anterior Hip Arthroplasty: A New Arthroplasty Surgeon's Experience

Nicholas Kolodychuk; Bradford S. Waddell, MD; Connor Ojard, MD, Ochsner Health System; Kaitlin Carroll; Robert Fischer; Michael Alexiades

Location: Churchill AB

10:55 – 11:00 AM

Does Type of Insurance Impact Outcomes After Total Knee Arthroplasty?

Hunter Starring, MD; William Waddell, ; William Steward; Stuart Schexnayder, MD; Jack E. McKay, MD; Claudia Leonardi, PhD; Vinod Dasa, MD

11:00 – 11:05 AM

A Novel Elastomer Cervical Total Disc Replacement Device Results in Biomechanics Similar to the Intact Spine: A Finite Element Study

Ali Kiapour; Kingsley Chin; Vijay Goel; Brandon W. Cook, MD

Location: Churchill AB

11:05 AM – 11:30 AM

Symposium 7: Trauma - Surviving the Night: Trauma Management in the Acute and Post-Acute Period

Moderator: James Hlavacek, MD

Panel: Paul B. Gladden, MD; Peter C. Krause, MD, FAAOS; Olivia C. Lee, MD, FAAOS; James Mautner, MD; Kevin B. Riche, MD; John M. Whatley, MD

Objectives:

Common fractures encountered in the emergency department will be presented. Participants will be exposed to controversies covering the acute management of these injuries including the controversies regarding their post-acute final management. Treatment algorithms for these injuries will be presented.

Location: Churchill AB

Debates

11:30 am - 12:40 pm

11:30 – 11:45 AM

UCL Injuries: Repair (Etier) vs. Reconstruction (Penton)

Brian Etier, MD; Judson Penton, MD, FAAOS
Location: Churchill AB

11:45 – 12:00 PM

Distal Humerus Fractures: Repair (Waggenspack) vs. Replace/TEA (M. Williams)

Wame N. Waggenspack, MD, FAAOS; Matthew Williams, MD, FAAOS
Location: Churchill AB

12:00 – 12:15 PM

Trauma Proximal Tibia Fractures: Nail (Walton) vs. Plate (Whatley)

Blaine T. Walton, MD; John M. Whatley, MD
Location: Churchill AB

12:15 – 12:40 PM

Total Hip Arthroplasty: Anterolateral (Schutte) vs. Anterior (Perry) vs. Posterior (Montgomery)

Thomas J. Montgomery, MD; Adam Perry, MD; John P. Schutte, MD
Location: Churchill AB

12:40 PM – 1:00 PM

2nd Business Meeting and Adjournment

Location: Churchill AB
